

Miller Aircore™ Patriotic Steel Harness

Comfort in the Air.

The Miller Aircore™ Patriotic Steel Harness is the most unique, innovative and patriotic fall protection available. **Assembled in the USA**, and shipped from our Franklin, PA facility, this lightweight, full-body harness has a **patent-pending design** with breathable, open-core padding technology to provide optimal airflow, while reducing heat and moisture entrapment to keep the worker drier and cooler. In addition, the stretchable webbing provides greater flexibility and increased comfort. The unique cam buckles on the shoulder straps make for the easiest vertical webbing adjustment of any harness on the market. The new, limited time, red, white and blue webbing design is an original and patriotic style, great for easy identification and increased worker visibility.

Assembled
in the USA

FEATURES & BENEFITS

Comfort

- Unique breathable, open-core padding technology provides optimal airflow and reduces heat and moisture build-up; up to 16% less surface area than other padding used on the market
- Contoured ergonomic padding design minimizes contact around a worker's neck, lower back and inner thighs to reduce chafing and irritation
- Patented DuraFlex stretchable webbing provides greater flexibility and mobility

Easy Adjustability

- Cam buckles provide easy one-hand adjustment; hold webbing firmly in place with no readjusting required
- Stand-up back D-ring easily adjusts, simplifies attachment
- Quick-connect buckles for easy donning

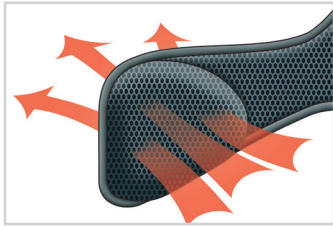

Lightweight

- Materials and components selected to reduce fatigue for all-day endurance and increased productivity; 16% lighter in weight than competitive harnesses with aluminum hardware, and 20% lighter than harnesses with steel hardware

Stylish Design

- High-visibility color for greater safety
- Unique and vibrant patterned webbing for easy identification

Breathable, Open-Core Padding Technology

Custom designed for the shoulders/ lumbar/legs (patent pending)

Optimal airflow / circulation

- Engineered to increase airflow through and around padding

Strategically placed padding

- Reduces heat and moisture entrapment, keeping a worker drier and cooler
- Contoured design minimizes contact around the neck, lower back and inner thighs, reducing chafing and irritation

Lightweight

- Materials and components selected to reduce fatigue for all-day endurance and increased productivity (available in steel or aluminum hardware)

Stand-Up Back D-Ring

- Easily adjusts; simplifies attachment; back pad with built-in fall indicator

Patented Stretchable Webbing

- Stretches with every movement; greater mobility and increased comfort

Integral Label Pack

- Honeywell RFID-enabled technology for inventory management; easy tracking, inspection, and monitoring

Cam Buckle

- Easy, one-hand adjustment/release allows simultaneous adjustment of shoulder straps

Mesh Back Shield

- Durable, knitted mesh membrane minimizes moisture absorption and maintains optimal air circulation

Quick-Connect Chest Buckle

Easy donning; dual tab release mechanism

Removable Belt

Uniquely designed to stay in position when disconnected, even when tools are attached; available on select models

Web Final

Clip-on design safely organizes webbing after proper adjustment
